

THE RESTORATIVE CONTINUUM

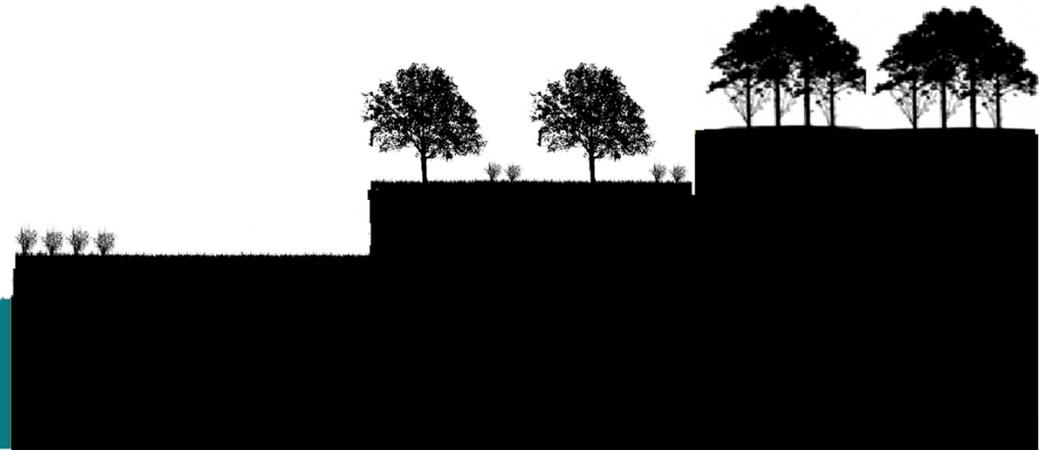

Improving biodiversity, ecological integrity, and ecosystem services

Reducing Societal Impacts
Rural landscape.

Improving Ecosystem Management
Rural landscape.

REDUCING SOCIETAL IMPACTS

No natural vegetation.
Urban landscape.

REDUCED IMPACTS

IMPROVING ECOSYSTEM MANAGEMENT

Intensively managed / non native vegetation.

REMEDICATION

REPAIRING ECOSYSTEM FUNCTION

Extensively managed non native vegetation.

REHABILITATION

INITIATING NATIVE RECOVERY

Native vegetation. Pump priming management. / Vegetation allowed to invade and succession taking place.

ECOLOGICAL RESTORATION

PARTIALLY RECOVERING NATIVE ECOSYSTEMS

Self sustaining native vegetation. Succession active and climax vegetation present.

FULLY RECOVERING NATIVE ECOSYSTEMS

Self sustaining native vegetation. Succession active and climax vegetation dominant.
